

2017 Nats #3

RV SITE: We now have an RV site! There will be twenty 50amp hookups available. There will be potable water available. I am going to get a dump set up as well. This will be a pump truck. Cost will be \$20 per day. Contact me for reservations. First come-first served. There will be a \$25 deposit payable to NSRCA to reserve your RV site.

WEIGHT AND MEASURE: There will be courtesy weight and measurement on the opening day (pilot's meeting) which is Tuesday. During the contest, Intermediate and Advanced will have the top 50% weighed and measured. All finalists and semifinalists will be weighed and measured in Masters and FAI. Sportsman will not be checked.

REMEMBERANCE: Don't forget about sharing your memories with others regarding past friends, flyers, helpers, etc. that have been involved in pattern.

We plan to have plenty of room to allow practice for everyone on the site. We should have 6 or more practice sites available when not competing. Also we will have the site open for practice the previous weekend. The catch is that if you come to practice before the Nats start, you will be asked to contribute a little of your time for setting up the event - couple of hours at least. There are NO PAID professionals doing this.

I could still use a few more volunteers. Please let me know if you want to help. Thanks.

More later

Mike
