

June 11, 2017

Dear RVers,

I have reviewed and visited the RV parks available and talked to the best site available for your use.

There are actually 4 sites available for us. I saw 3 of the 4. There is one that is not on the internet and I did not like it. There is one too far away so I did not go there. Of the 2 remaining, Blytheville RV and Grizzly RV, I talked to the manager of Blytheville RV. Here is what I recommend:

Blytheville RV would be my 1st choice

1. It is located very close to the group of hotels that were recommended to stay for the week.
2. The rate is very attractive \$40 per night, \$200 for a week, if 5 or more for our event stay, then another discount (don't know how much but be sure you tell them it is for the model airplane event).
3. Full hookups - better than what we would have been able to do.
4. The closest to the contest-airbase-easy drive
5. 10 spots available
6. You can reserve and cancel later at no cost within 2 days of your reservation
7. For those needing a sewage dump station \$20 including water refill.
8. Contact Christy-manager-870 763 1241. That is the number for Day's Inn and the RV site is next door.

Grizzly RV Park

About the same distance driving but not close to the hotels/restaurants at all. However, not a long drive-5-6 miles.

1. Pleasant site
2. Several spots available
3. Did not talk to them
4. Don't know the rates
5. 870 623 4971

Car rental:

Paul Newell's Collision Center-870-763-5000. He will pick up and deliver. Call to find out more. Only rental in town.

Regarding the airbase - you are welcome to stay there all week no charge. Also you will be able to drive your RV to the flying site for the day. Should not be a problem. There are several places to set up and there will be a lot of latitude regarding where you want to set up. You can come and go as you please. In addition there are restrooms available in the newly remodeled control tower and the fire station. There are old but functioning showers in the fire station as well.

Sorry we are not allowed to supply power but I hope this doesn't deter you from coming.

Regards,

Mike - Event Director
